

Capability Statement

Edmundson Industrial LLC · Houston, TX

COMPANY SNAPSHOT

Edmundson Industrial LLC is an independent industrial electrical supply, sourcing, and custom fabrication company based in Houston, Texas. We specialize in hard-to-find, obsolete, and surplus industrial electrical equipment, and we build the custom enclosures, panels, and brackets that go with it. Owner-operated by Andrew Edmundson, President. We are an independent supplier, not an authorized distributor of any brand.

CORE SUPPLY

- Circuit breakers (molded-case, obsolete and current)
- Contactors and motor control
- Motor control center (MCC) parts and buckets
- Drives and VFDs (PowerFlex, ABB, Yaskawa, Siemens, Eaton)
- Switchgear and transformers
- New-surplus, used-tested, and reconditioned equipment

SPECIALTIES

- Ross Hill / NOV drilling-rig electrical: SCR and DC drive systems, control modules, and power stacks
- Obsolete and hard-to-find legacy electrical
- Surplus and reconditioned equipment
- Cross-reference sourcing across Allen-Bradley, Square D, Eaton, GE, Siemens, and Westinghouse

CAPABILITIES

- Parts sourcing and cross-referencing from a broad surplus and vendor network
- Custom metal fabrication: enclosures, sub-panels, adapter plates, and brackets
- Retrofit support so modern replacements fit legacy footprints

HOW WE WORK

- You reach the person who sources your part. No portal, no transfer, no junior rep.
- Condition disclosed before sale: new-surplus, used-tested, or reconditioned.
- Same-day response on most quote requests.
- We confirm voltage, rating, frame, and fit before you buy.
